

Wellness & Revenue Assistance Program™ (WRAP™)

Navigating the Evolution of Revenue

Traditional fee-for-service operations are being replaced with value-based reimbursement, alternative payment models and CMS's Merit-based Incentive Payment System (MIPS) under MACRA. Long-term business sustainability depends on streamlining operational efficiencies, optimizing your revenue cycle and correct adoption of these new quality payment programs—while avoiding hidden penalties and pitfalls.

Expert partners can assist providers in understanding the performance requirements for a changing reimbursement landscape. Keys for success include proper data capture, effective quality reporting and choosing incentive programs best suited for each practice and specialty.

Advantum Health brings a way for providers to focus on the health of their patients, instead of these administrative complexities. We partner with our customers using WRAP to avoid any MIPS payment penalties in 2020 based on 2018 performance.

Proven Experience for Bottom-Line Results

Advantum Health guides and advises providers as they navigate MACRA's new quality payment programs. Based on a 100% successful attestation rate for Meaningful Use in our customer base, expert training, and quality control services for PQRS, we have the experience and proven results you can trust. WRAP is an ongoing consultative and advisory service that delivers education, best practices, registration, performance analysis and oversight to prepare for and thrive in value-based care.

Advantum Health Helps You Achieve Maximum Reimbursement Under QPP

Advantum Health offers a comprehensive, partnership that secures near-term revenue while building momentum for value-based reimbursement with the following service offerings:

For more information:

866.814.5652

- 5%-15%+ revenue improvement in most engagements
- Avoidance of MIPS payment penalties in 2020 based on 2018 performance
- Full analysis of current state programs, patient population, and systems with recommendations for enhancements

Wellness & Revenue Assistance Program™ (WRAP™)

Advantum Health delivers white-glove services, consulting expertise and program reports for all quality payment programs such as MIPS, State & Federal APMS, and Bundled Payments. With WRAP providers benefit through:

- Maximized incentives
- Mitigated risk of revenue loss and audits
- Training and quality assurance from our certified experts
- Spending more time focused on patients and revenue, not regulatory compliance

Specific services included within WRAP are:

- Assess—Review existing clinical performance
- Recommend—Select specialty specific measures
- Train—Audit and educate for correct coding, documentation and EHR workflow optimization
- Report—Provide financial and clinical audit reports
- Monitor—Conduct ongoing performance assessments
- Registration and Attestation—Register and complete attestation process for the practice
