

Expert RCM Services. Powerful Results.

Advantum provides end-to-end, tech-supported revenue cycle management (RCM) services. Our RCM experts are dedicated to processing claims rapidly and accurately, minimizing denial incidents, delivering actionable communication, producing on-point reporting, easing labor and IT costs, and identifying revenue opportunities—all with maximum transparency. Our cost saving services not only improve your bottom line and cash flow, they add scalability with improved control of your billing workflow. We leverage technology in support of our services to deliver the most streamlined, accurate and effective results.

Outcomes You Can Count On

- ✓ Maximized reimbursements & revenue
- ✓ Healthy cash flow
- ✓ Increased speed to payment
- ✓ Expedited payer enrollment & credentialing
- ✓ Reduction in outstanding accounts
- ✓ Fewer denials and expedited resolutions
- ✓ Reinforced compliance and fine avoidance
- ✓ Reduced administrative burden and costs

Quality Controlled Medical Billing & Coding

Our technology-enabled medical billing services ensure coding accuracy to optimize your revenue and minimize compliance-related risks. We deliver timely charge capture and billing as well as error-free claims and cash posting submissions. All supported by our advanced Advantum Ai medical billing platform and dashboard, you have near real-time visibility into valuable business intelligence.

Focused Accounts Receivable Follow-up

Optimize your organization's revenue, revenue recovery and cash flow with Advantum's end-to-end accounts receivable services. Our dedicated team of AR billing specialists are your champions for revenue cycle health. We expertly develop smart AR strategies for your organization and then diligently see them through from initial evaluation to collections.

Proactive Denial Management & Prevention

We do the work up front to minimize denials on your behalf, implementing proven prevention strategies and processes. With Advantum Ai's predictive analytic capabilities, our technology enables us to proactively help you avoid denials. When claim denials do arise, we jump into action to facilitate prompt resolution. Our team is adept at managing efficient communications and leveraging Advantum Ai's artificial intelligence to assist with denial management workflows.

Automated Provider Enrollment & Credentialing

We're experts at navigating provider enrollment and credentialing for commercial, Medicare and Medicaid insurance. Our provider enrollment services team seamlessly facilitates all details including document collection, privileging, NPI registration, payer portal set-up, revalidation, CAQH maintenance, and more. We take the administrative burdens off your team and ensure the flow of prompt payments to your organization.

Seamless Prior Authorization & Accurate Eligibility Verification

Process optimization experts, we take prior auth and eligibility verification off your plate. We streamline collection and verification of health insurance status and patient eligibility as well as the submission of all necessary information to receive prior-auth approval. Supported by our robust Advantum Ai tech platform—we efficiently and effectively facilitate the process saving you time and money.

CMS-Compliant Coding Audits

Never worry about compliance again. Advantum's expert CPMA certified coders ensure you are fully compliant with CMS rules and regulations. We provide: proactive claim and document reviews to ensure you're prepared for OIG and RAC audits; comprehensive analysis of your contracts, claims, and payments to find potential underpayments; and expert training for your staff and physicians.

Advantum Ai: Technology Powering Revenue Cycle Optimization

Advantum's innovative Advantum Ai software provides the technology backbone for our services. Our integrated and revolutionary suite of applications streamline workflows, improve accuracy and efficiency, and deliver actionable insight and transparent, real-time updates to our clients.
