

# Denial management turns claims into revenue.

*Preventing denials is half the work.*

*Recovering the rest is the other half.*

Most denials are preventable. The rest are recoverable. Advantum runs denial management as one coordinated service: certified coders catch issues before submission, Advantum One surfaces denial patterns in real time and the team handles appeals, payer follow-up and root-cause review. Every denied claim moves through one accountable workflow from first review to final resolution.

## Proactive

#### WHAT WE DO

## Every denial. Every appeal. Every payer.

Advantum runs denial management as a coordinated service. Denials experts catch issues at the source. Advantum One surfaces denial trends and tracks every appeal in real time.

### 01 Denial prevention

Coding and submission reviewed up front. Issues caught before claims leave the practice.

### 02 Denial triage

Every denial classified by payer, reason code and recovery likelihood.

### 03 Root cause analysis

Patterns surfaced across denials so the same problem stops repeating.

### 04 Appeal preparation and submission

Documentation-supported appeals filed within payer timelines.

### 05 Payer follow-up

Active follow-through with every payer until each appeal reaches resolution.

### 06 Workflow integration

Denial outcomes feedback into your coding and front-end workflows.

### 07 Trend reporting

Real-time dashboards in Advantum One showing denial categories, payers and resolution velocity.

### 08 Predictive analytics

Pattern recognition flags high-risk claims before submission

TECHNOLOGY + SERVICE

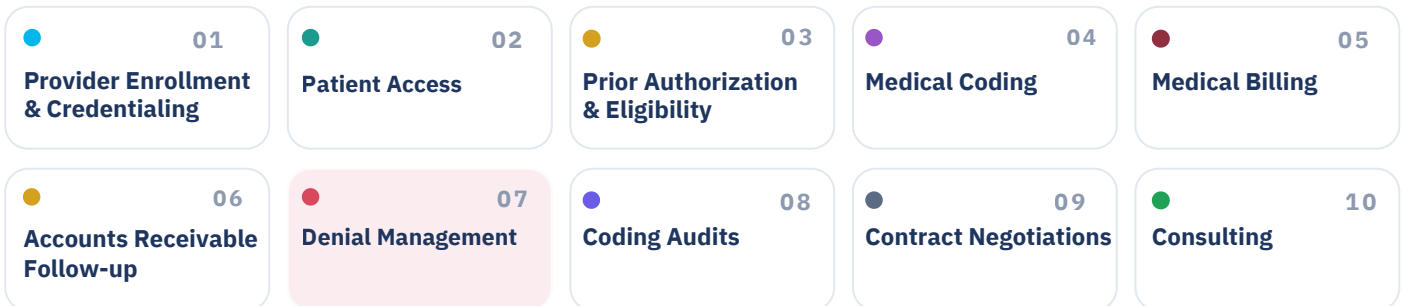

# Powered by Advantum One. Run by appeals specialists.

*Preventing denials and recovering them are different disciplines. Advantum runs both.*

Denial management depends on two disciplines working together. Advantum prevents the avoidable through clean coding and disciplined submission, then recovers the rest through documented appeals and active payer follow-up. Every denied claim runs through Advantum One, with accountability from first triage to final resolution.

## Full revenue cycle. Flexible engagement.

Denial Management can be purchased as a standalone service or integrated into a full revenue cycle partnership. Solve one challenge or consolidate the cycle under one partner.
