

# Medical billing, paid faster.

*Documentation translated into clean claims, submitted right the first time.*

Billing is the daily mechanics of getting paid. Advantum Health handles charge capture, claim scrubbing, submission, and cash posting. Powered by the Advantum One platform, we turn completed work into deposited revenue with fewer touches and fewer re-bills.

**WHAT WE DO**

## Every charge. Every claim. Every payment.

Advantum runs medical billing as a complete service. Charges captured the day services post, claims scrubbed before they leave, payments posted with line-level accuracy.

**01 Charge Capture**

Charges captured daily with reconciliation checks to help prevent missed billing.

**02 Claim Creation**

Claims assembled with payer-specific formatting, provider alignment, NPI and tax ID verification, and required billing details.

**03 Claim Scrubbing**

Pre-submission edits catch payer, CCI, and coverage issues before they delay payment.

**04 Electronic Submission**

Claims submitted through major clearinghouses with payer routing, batch tracking, and delivery confirmation.

**05 Payment & Cash Posting**

ERA, EOB, and lockbox payments posted with line-level reconciliation against expected reimbursement.

**06 Patient Statements & Patient Balance Billing**

Patient balances billed through statement cycles, inquiries supported, and eligible accounts transferred to the client's collection agency.

**07 Refund & Credit Balance Management**

Credit balances reviewed, refunds processed, and required Medicare reporting supported.

**08 Underpayment Identification**

Payments validated against contracted rates, with variances flagged for AR follow-up.

TECHNOLOGY + SERVICE

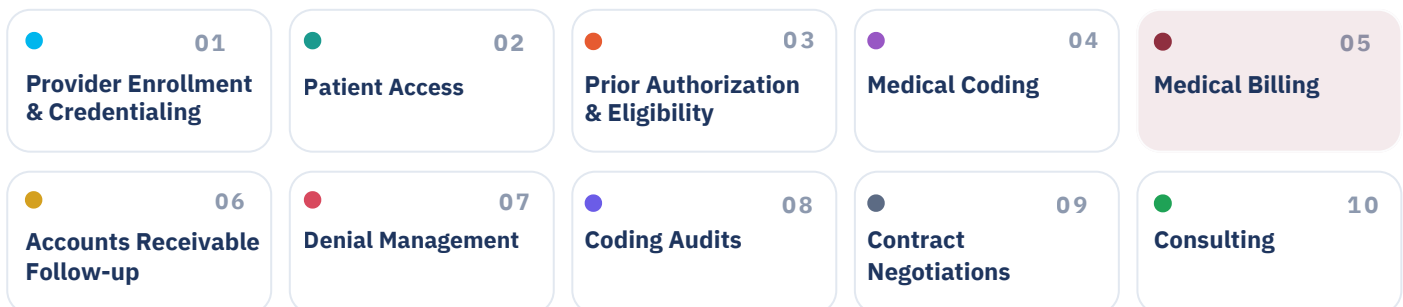

# Billing is a daily discipline, not a month-end cleanup.

*A clean claim sent today is revenue moving sooner.*

Advantum Health runs medical billing on Advantum One, where charges are queued as services post, claims are scrubbed against payer-specific rules, submissions are confirmed through clearinghouse workflows, and payments are posted with line-level visibility. Variances surface to AR, denial, and contract review teams inside the same operating model, so the gap between work performed and revenue collected stays small, visible, and actionable.

## Full revenue cycle. Flexible engagement.

Medical Billing can be purchased as a standalone service or integrated into a full revenue cycle partnership. Solve one challenge or consolidate the cycle under one partner.
