

Enrollment is where revenue begins.

In-network status earns patient trust. Clean credentials earn predictable reimbursement. Advantum Health treats enrollment as a financial discipline, not paperwork. Our team manages every step from documentation to payer approval, so providers reach billable status faster and with fewer avoidable delays.

End to end

One team manages the workflow from intake through approval

Real-time

Application status updates are visible through the Advantum EVE portal

Day one

Active payer follow-up begins once documentation is submitted

4 days

TIME TO SUBMISSION

Applications submitted within four business days.

up to 99%

FIRST-PASS APPROVAL

Submissions cleared on initial payer review

50 +

PAYER RELATIONSHIPS

Active commercial, Medicare, and Medicaid panels managed with dedicated contacts

WHAT WE DO

Every enrollment. Every payer. Every renewal.

Advantum manages the full enrollment lifecycle, including documentation, submission, payer follow-up and renewal. Providers stay focused on care while our team keeps enrollment work moving.

01 Commercial enrollment

Network applications are prepared, submitted and tracked through approval. Provider data stays consistent across every payer panel.

02 Medicare and Medicaid enrollment

Federal and state requirements are managed together, including managed care plan registration where applicable.

03 Revalidation and recertification

Renewal calendars built around your dates. Coverage gaps closed before they affect billing.

04 DataSpring (CAHQ) registration and maintenance

Profiles kept current and attested on schedule. Providers stay focused on care while the team works the queue.

05 NPI registration, Type I and Type II

Individual and organizational identifiers issued correctly the first time. Linked across payer records.

06 PECOS enrollment and updates

Medicare provider enrollment, including reassignments, group affiliations, and ongoing changes.

07 Privileging and contract negotiation

Hospital privileging coordinated alongside payer enrollment.

08 Documentation review and payer follow-up

Licenses, TINs and malpractice coverage verified before submission. Active follow-up until applications close.

WHY ADVANTUM

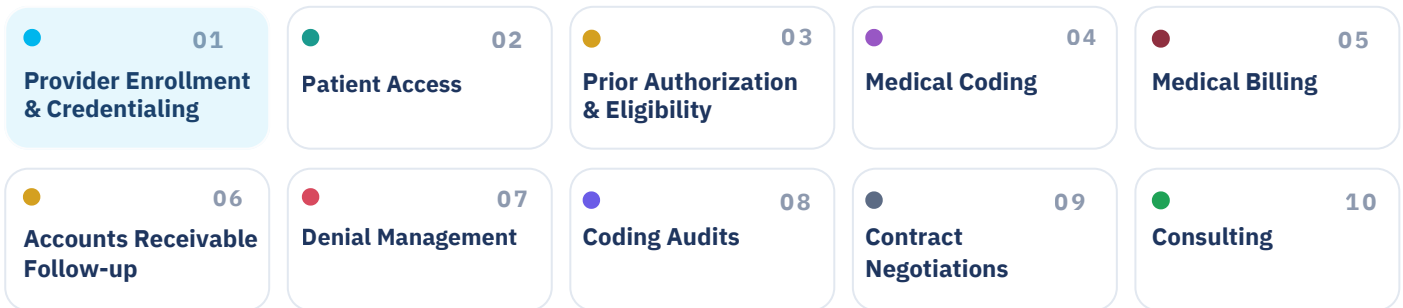

Built on technology. Run by operators who know payers.

Two things determine enrollment performance: discipline and visibility. Advantum delivers both as one service.

Advantum EVE is the operating system for credentialing work. The platform handles what software is built for: status monitoring, expirables tracking, data integrity and real-time reporting. The Provider Enrollment team handles what software cannot: payer relationships, exception escalation, contract negotiation and judgment calls. The combination is the product.

Full revenue cycle. Flexible engagement.

Provider Enrollment can be purchased as a standalone service or integrated into a full revenue cycle partnership. Solve one challenge, or consolidate the cycle under one partner.

ABOUT ADVANTUM

Revenue cycle, treated like the financial discipline it is.

Advantum Health delivers full-scale revenue cycle management for providers, hospitals and health systems nationwide. The work is a financial discipline. The technology is proprietary. The teams are specialized. The measure of success is the impact on the provider's bottom line.

25+ years

Operating revenue cycle for providers across the United States

15,000+

Active providers across the platform
