

Prior authorization is where care gets cleared.

Approval rate matters as much as turnaround time. Advantum is built for both.

Advantum runs the work as a coordinated service. SmartEPA submits across payer channels, Advantum One tracks every status in real time and the Prior Auth team handles criteria interpretation, escalations and follow-up. Submissions, decisions and documentation live in one accountable workflow from start to finish.

Faster answers

Submitted via EDI 278, fax or online, based on payer requirements

Real-time

Status of every authorization visible 24/7 in Advantum One

Integrated

Connects directly to your EMR or PMS with no rip-and-replace requirement

up to 95%

FIRST PASS APPROVAL

Authorizations cleared on initial payer review

Allscripts · Epic · ModMed · TherapyNotes · Cerner · SimplePractice · and more

WHAT WE DO

Every authorization. Every eligibility check. Every payer.

Advantum runs prior authorization and eligibility as a coordinated service. SmartEPA does the work behind the scenes. Advantum One gives you real-time visibility.

01 Prior authorization submission

Required paperwork submitted across every payer requirement, with active follow-up.

05 Patient account updates

Authorization status posted back to your system of record.

02 Eligibility and benefits verification

Patient coverage confirmed at both the policy and CPT level before the service is delivered.

06 Multi-channel submission

EDI 278, fax or online portals. Whatever the payer requires.

03 Criteria sheets and forms

Expert completion of payer-specific clinical criteria and authorization forms.

07 Bulk import and export

Orders and status results moved between Smart EPA and your EMR.

04 Pre-auth follow-up

Active follow-up with payers until decisions are documented.

08 Reporting and analytics

Real-time dashboards in Advantum One, accessible 24/7.

TECHNOLOGY + SERVICE

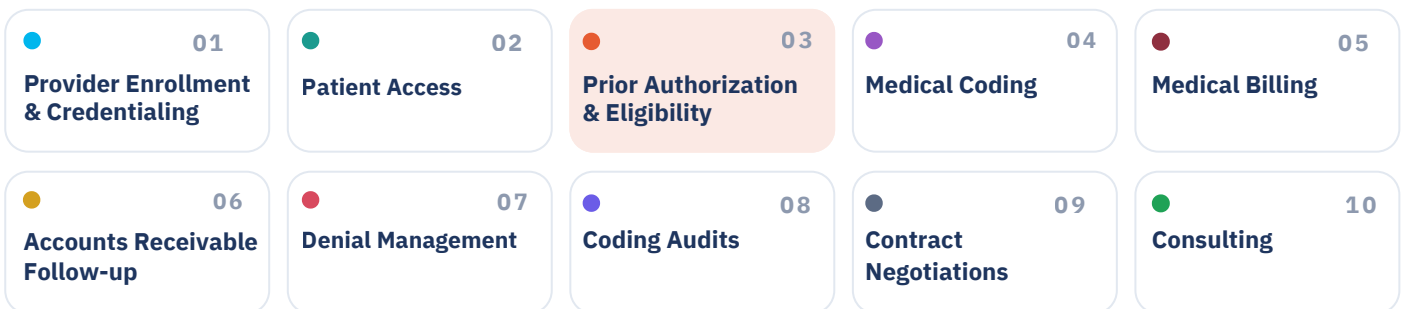

SmartEPA does the work. Advantum One shows the progress.

The right submission, to the right payer, in the right format, the first time.

SmartEPA is the engine. Purpose-built for prior authorization, it submits via EDI 278, fax or online and tracks every authorization in real time. Advantum One is the platform you log into, with status, analytics and dashboards in the same place you would see any other Advantum service. The Prior Auth team handles what software cannot: clinical judgment, payer-specific criteria and follow-up.

Full revenue cycle. Flexible engagement.

Prior Authorization can be purchased as a standalone service or integrated into a full revenue cycle partnership. Solve one challenge or consolidate the cycle under one partner.

ABOUT ADVANTUM

Revenue cycle, treated like the financial discipline it is.

Advantum Health delivers full-scale revenue cycle management for providers, hospitals and health systems nationwide. With proprietary technology, specialized expertise and a disciplined approach to financial performance, we help providers gain visibility, eliminate avoidable delays and capture the reimbursement they have earned.

25+ years

Operating revenue cycle for providers across the United States

15,000+

Active providers across the platform
